1. Take the bag out of the net pocket.

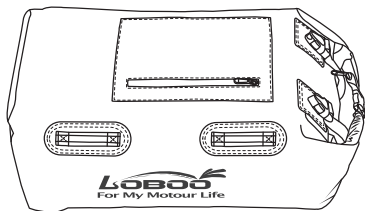

2. After putting in the items, close the rolling top zipper, and fold it down three times (IPX6 level waterproof performance).

3. Connect the fixed buckles on the left and right of the rolling top.

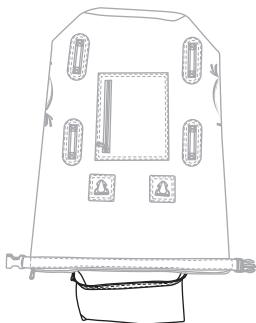

4. Rolling closure fixed buckle: Connect the rear buckle with the front buckle, and adjust the strap length.

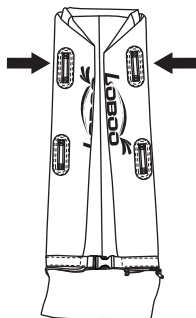

5. Operation completed.

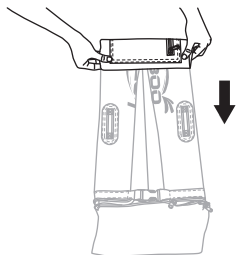

Folding Storage

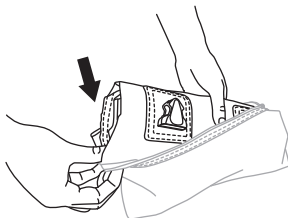

1. Lay the bag flat and turn the storage mesh pocket inside out.

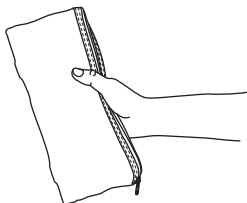

2. Flip to the backside, connect the left and right buckles, and fold both sides toward the center.

3. Roll the bag upward from the bottom.

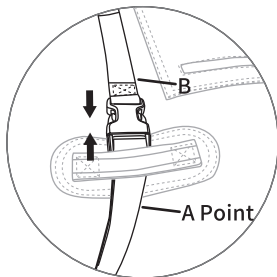

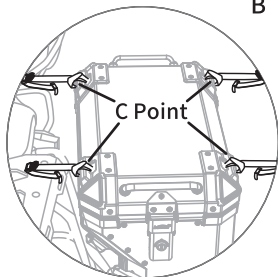

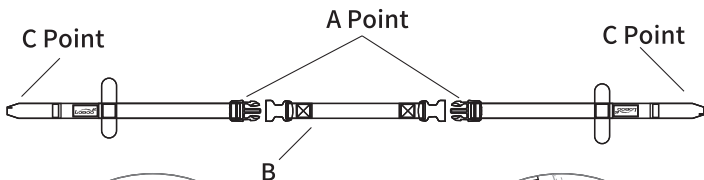

4. Place the bag into the mesh pocket.

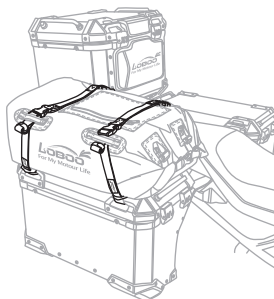

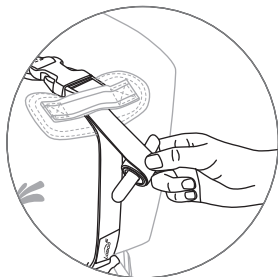

5. Operation completed.

LOBOO Quick Release Strap x 2

1. On the lid of the motorcycle trunk, use C Point to tie 4 fixed points respectively, as shown in the figure.

2. Connect LOBOO quick release straps A Point and B, pass through the limit strap and directly bind the waterproof bag.

3. Tighten the quick-release straps, adjust the webbing length, and secure it with Velcro.(Note: Ensure the excess webbing is properly tucked away to prevent it from getting caught in the motorcycle's wheels or chain.)

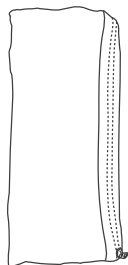

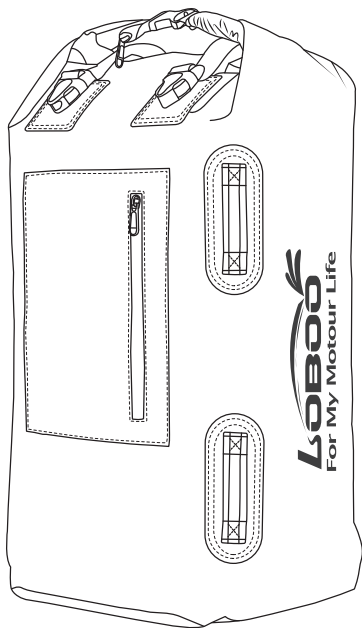

4. Operation completed.

Precautions For Use

1. After each use, please use a soft damp towel and soap (do not use bleach, fabric softener, or other acidic and alkaline detergents) to wipe off the product surface stains, do not machine wash, iron, dry clean, or use any form of drying, just let it dry naturally, do not expose it to sunlight for a long time.
2. When the products are not used for a long time, the products should be placed in a dry, cool environment to avoid mold damage to the products; please clean the dust and dirt on the surface of the products regularly to extend the service life.
3. Before traveling, please check to ensure all the latches are locked, so that the product will not be dislodged or opened during the ride and cause danger.
4. Before traveling, please check quick-release strap to make sure they are not aged and can be used normally. Do not use anti-pests on the surface of the products when it is used in harsh outdoor environments.
5. Please prevent sharp objects from scratching the fabric of the product, which will affect the waterproof performance.
